**RE: FCC Form 302-AM License Application for Direct Measurement of Power
Station WKEW (AM), Greensboro, NC (FCC Facility ID No. 73156)**

Dear Ms. Dortch:

On behalf of Truth Broadcasting Corporation, transmitted herewith, in triplicate, is an application for direct measurement of power (FCC Form 302-AM) for WKEW (AM), Greensboro, NC (Facility ID No. 73156). No filing fee is required for this application. This application is being filed concurrently and in association with Delmarva Educational Association's application for a license to cover the construction permit for co-located FM translator W242CD, Greensboro, NC (Facility ID No. 142274) – BLFT-20181129AAE.

Should any question arise in connection with this matter, please contact the undersigned.

Sincerely,

Davina Sashkin, Esq.

I am a Consulting Engineer, an employee in the firm of Carl T. Jones Corporation with offices located in Springfield, Virginia.

My education and experience are a matter of record with the Federal Communications Commission. I am a Registered Professional Engineer in the Commonwealth of Virginia, Registration No. 027914.

This office has been authorized by Truth Broadcasting Corporation, ("Truth"), licensee of AM station WKEW, Greensboro, North Carolina, to prepare this statement and FCC Form 302-AM, Section III, in support of an Application for Direct Measurement of Power. This instant application is necessary to re-establish direct measurement of power following a change in base impedance due to the installation of the W242CD¹ FM translator antenna on the WKEW tower.

After installation of the W242CD antenna, the base impedance of the WKEW non-directional tower was measured at $Z = 46.3 + j53.7$ ohms. Impedance measurements were made by Joshua M. Arritt, a technical consultant in the area, see

¹ FCC File No. BPFT-20151023ATP.

the attached report. The non-directional base impedance varied greater than 2% from the values indicated on the license authorization.

The transmitter output has been adjusted such that the non-directional base current indicates 4.65 amperes for the daytime and nighttime power level of 1,000 Watts.

The W242CD antenna installation is complete and the WKEW transmission facility is in full compliance with the station's authorization. It is requested that WKEW be granted authority to return to the direct method of power determination.

This statement and attached engineering report were prepared by me or under my direct supervision and the information contained herein is believed to be true and correct.
